

I use this service everyday. It makes me a safer driver. Please help foster the growth of this idea. The end result will be more informed and safer folks on the road. The people at xm deserve a pat on the back; this is only one of the ways they can "give back" to the people they serve everyday 24/7/365. Yes, I said 24 hours a day! You can not get that kind of local traffic report anywhere except on XM radio. This service will save lives.

Thanks for your time,

Russ Barden
